VETO OF TAFT STILL STANDS

Attempt to Override Same in House Is Fruitless.

ON WOOL AND FREE LIST BILLS

Solid Democracy, with Assistance of Insurgent Republicans, Make Unsuccessful Assault on Presidential Damper.

Washington, Aug. 19.—The solid Democracy of the house, aided by the last-ditch insurgents on the Republican side, struggled earnestly but ineffectually to override President Taft's veto of the farmers' free list and wool bills.

On the wool bill, with 23 Republican insurgents joining hands with the Democrats, the vote was 227 to 129. On the basis of the total vote cast, the 227 members registered in favor of overriding the president's veto was 14 shy of the necessary two-thirds

On the free list bill, with 25 Republican insurgents assisting the majority, the vote was 226 to 127. This vote of 226 in favor of passing the bill over the veto was 11 votes under the necessary two-thirds.

The Republicans who voted with the Democrats on the bill were: Representatives Aiken, of New York; Anderson, Davis, Lindbergh, Steenersen, and Volstead, of Minnesota; Hanna and Helgesen of North Dakota; Haugen, Hubbard and Woods of Iowa; Jackson, Madison, Murdock and Young of Kansas; Kent of California, LaFollette and Warburton of Washington, Norris of Nebraska, and Lenroot, Morrison and Nelson of Wisconsin.

There were several switches when the record vote on the free list measure was taken. Representatives Kinkead and Sloan of Nebraska, Lafferty of Oregon, and Morgan of Oklahoma, who had voted against overriding the veto on the wool bill, voted with the Democrats on this measure. Representative Miller of Minnesota, who had voted with the Democrats on the wool bill, became regular on the free list bill.

NEW STATEHOOD RESOLUTION

Amended Enactment Is Passed by Senate by Decisive Majority.

Washington, Aug. 19. — The statehood resolution offered by Senator William Alden Smith of Michigan, chairman of the senate committee on territories, which was revised at a conference of the joint committees on territories of the two houses, passed the senate by a vote of 53 to 8.

The new resolution omits the recall of judges from the Arizona constitution and makes it imperative that this elimination should be accepted by the people of Arizona as a condition of their coming into the Union. Certain modifications are suggested in the constitution of New Mexico, which are intended to make that document easier of amendment.

AUTHOR FOUND INSANE

Coroner's Jury Renders Verdict on Myrtle Reed's Suicide.

Witnesses Say that Husband's Neglect and Drinking Caused Fatal Act.

Chicago, Aug. 19. — Grief over her husband's dissipation and neglect of her caused Mrs. Myrtle Reed McCullough, one of the gifted writers of the times, to commit suicide.

Such was the testimony given at the coroner's inquest over the body of the novelist at her home, 5120 Kenmore avenue. Friends and relatives were present, but her husband, James Sydney McCullough, a real estate broker with offices at 8 South Dearborn street, was not at the inquiry.

Annie Larsen, who had been Mrs. McCullough's close companion four years and to whom the novelist wrote her last message before swallowing poison, dramatically described the woes of Mrs. McCullough.

The girl's testimony was corroborated by Hiram V. Reed, father of Mrs. McCullough, who declared that his son-in-law frequently became intoxicated and remained away from home until late at night.

The coroner's jury, after being out only five minutes, returned the following verdict:

Mrs. Myrtle Reed McCullough came to her death, at her home, 5120 Kenmore avenue, from poisoning, due to an overdose of veronal, self-administered with suicidal intent. The jury further finds that the deceased had been suffering from insomnia, which affected her mind at the time of taking said poison, and was temporarily insane.

APPLE CROP IS LARGE

Illinois Will Have 75 Per Cent More Than Last Year, Bulletin Says.

Boston, Mass., Aug. 19.—New York state and the middle west have a bumper apple crop this year for export shipment, according to the bulletin of the Boston chamber of commerce just issued.

The far west, Virginia and New England have fallen off somewhat, but New York and the middle west bring this year's average up to half as large again as last year's. Michigan, Illinios, Indiana and Iowa have 75 per cent more apples than last year.

AFFAIRS OF CLIMAX SPECIALTY CO. UNDER CLOSE EXAMINATION

Ann Arbor, August 19.—The affairs of the Climax Specialty company of this city, of which John Davis is the president, and Harry Davis, the secretary, are attracting attention at present, their business having apparently reached a critical stage. This company was originally located at Seneca Falls, N. Y., where it had grown into a business of such proportions that the Ann Arbor board of commerce was induced to offer Mr. Davis, the inventor of the articles manufactured, sufficient inducements to bring the factory here. A location was given him and the board of commerce agreed to underwrite $100,000 worth of bonds, practically all of which were disposed of to Ann Arbor people.

The board of commerce has gone to Mr. Davis' rescue several times, when his need for help seemed serious, but they are apparently tired of repeating this process endlessly.

The affairs of the company are being rigidly inquired into. It is expected that fair dividends will be got out of the estate for the creditors. The bond holders have the first lien on the plant, while the business run of creditors have first call on the open account assets.

TAXES COME SLOWLY

Chief of Police Gage reports that the July taxes are coming in rather slowly. About $470 has already been collected and there is still nearly $2,300 still due. The collections, however, thus far this month are much better than they have been for the past seven years. On account of numerous improvements the taxes for this month are some higher than they were last year.

BIG FOUR TRAIN IN BAD WRECK

Cincinnati Flyer Jumps Track at Columbus, Ohio.

THIRTY PERSONS ARE INJURED

Pullman Cars Remain on Track, but Day Coaches Are Thrown About and Badly Splintered—Some of the Wounded.

Columbus, O., Aug. 19. — Rounding the curve to the approach of the Toledo and Ohio Central cross-over at McKinley avenue at a speed estimated to have been greater than fifty miles an hour, Big Four passenger train No. 46, due in Columbus from Cincinnati at 11:45, jumped from the track owing to a low place in the road bed, and four coaches were overturned.

The Pullman cars remained on the rails, only the lighter day coaches and baggage car overturning. Over one hundred passengers were piled in heaps under the splintered woodwork wreckage of the coaches and the shrieks of the injured attracted a large crowd.

News was slow in reaching the police and it was not until about 1 p. m. that the city and private ambulances received their calls. Every ambulance and all the patrol wagons in the city were sent to the scene, and the work of removing the wounded to the hospitals was begun.

Calls were sent to the homes and offices of physicians and with automobiles pressed into service, several score were taken to the place to succor the wounded.

Train No. 46 is the fastest train on the Big Four, making connections with the Twentieth Century flyer for New York at Cleveland. The majority of its passengers are through fares, and it is usually the best patronized.

Thirty persons were more or less seriously injured. No one was killed.

The wreck is six miles from the center of the city and information was difficult to obtain. Among the seriously injured are: Mrs. Rose Marquard, Dayton, ribs dislocated, taken to Cleveland; Mrs. L. Strickland, Owensville, Ind., right hand mangled, body contusion; Mrs. Sarah Gardner, her sister, San Bernardino, Cal., right side cut and bruised; Mrs. E. A. Rough, Cincinnati, back sprained; Miss Minnie Shank, Dayton, O., scalp cut, shoulder sprained, internal injuries; Mrs. Callie Wuest, Cincinnati, jaw broken; Albert Drodall, Cincinnati, chef on diner, back sprained; Mrs. Hazel Henninger, Mt. Carmel, Ill., probably fatally injured; A. M. Prodo, Lima, O., cook on diner, badly burned.

YPSI MEN TRY FOR REPRESENTATION AT GOOD ROADS MEET

The annual meeting of the Michigan State Good Roads Association will be held in Lansing August 31 and Sept. 1. This promises to be the most enthusiastic gathering of the kind ever held in the state and it is hoped that it will place Michigan in the front rank of states noted for good roads.

Efforts are being made by W. H. Sweet and other prominent merchants to have Ypsilanti represented at this meeting and take part in the statewide good roads movement. The inferior condition of the roads in this vicinity particularly between here and Detroit was brought very forcibly to Mr. Sweet's mind during his recent trip through New York. He states that the roads in the vicinity of Ypsilanti were the worst that he encountered throughout the whole trip.

OLDEST MAN DEAD

George Allen, 97, oldest man in Ypsilanti, died Friday morning. He was born in England. He was for 40 years sexton of Highland cemetery, Ypsilanti. Until recently he was a very active and familiar figure about the city.

IN TROUBLE AGAIN

George Poulos who recently purchased a restaurant at Grand Ledge seems to be having trouble again in this city. When he sold his restaurant on Huron street to Peter Ganallis some time ago a cash register was included in the bill of sale. This cash register, however, it seems was not paid for and as the payments were not forthcoming the machine was taken back by the cash register company. Poulos was brought back to the city Friday from Grand Ledge to answer to a charge of obtaining goods under false pretenses on complaint of Peter Ganallis. He was arraigned before the local justice Friday afternoon and pleaded guilty. The justice allowed him to go on payment of costs, $22, and $15 yet due on the cash register.

SOTHERN WEDS JULIA MARLOWE

Prominent American Stars Are Married in London.

EACH WEDDED ONCE BEFORE

Friends in America Are Greatly Surprised by Announcement, Though There Have Been Many Rumors Heretofore.

London, Aug. 19.—E. H. Sothern, the American actor, and Julia Marlowe, the actress, with whom he was starred, were married in the registry office at Knightsbridge. The marriage was a complete surprise to the friends of the two players.

Mr. and Mrs. Sothern left the Hyde Park hotel, where they were staying, and have gone on a honeymoon to Devonshire, where they intend to take a house until the autumn. The marriage was witnessed by a New York lawyer whose name is given as Kolefax.

Mr. Sothern and Miss Marlowe have appeared together in various roles since 1904, when they began their partnership under the management of Charles Frohman. Numerous rumors that the actor and actress were to be married have been circulated at various times since they first appeared together, but each time they were denied.

Sothern and Miss Marlowe sailed for Europe early in July on different steamers and have been spending their vacation together abroad. When Sothern left on his ship he was asked by reporters whether it was true that he was going to marry Miss Marlowe. "I wish it were true," was his significant reply. He refused to say anything more on the subject.

Both Sothern and Miss Marlowe have been married before, and in each case the matrimonial venture terminated unhappily. Miss Marlowe got a divorce from her actor husband, Robert Taber, in 1900 and Virginia Harned was granted a decree against E. H. Sothern last year at Reno after he had made an unsuccessful attempt to have her marriage annulled.

CARD OF THANKS.

We wish to express our heartfelt thanks to our kind friends and neighbors for their sympathy and aid in our recent affliction.

CONGRESS TO ADJOURN SOON

Tentative Agreement Reached for Tuesday or Wednesday Next.

Washington, Aug. 19.—A tentative agreement to adjourn congress late Tuesday night or at noon Wednesday has been reached by the leaders of the senate and the house.

An effort made by Senator Penrose, chairman of the committee on finance, to bring about an adjournment today, failed, owing to the insistence of Representative Mann of Illinois, the Republican leader of the house, that the cotton bill go over until Monday.

LOOKED TO SEE IF AIM WAS GOOD, GETS BULLET IN HER EYE

The old theme of children and air guns has been worked out again in this community. A few days days Iva and Ralph Willoughby went into the woods with a litle air gun to shoot at a mark. The little girl undertook to look into the working end of the gun to see if her brother was aiming properly. She judged he was and told him to shoot. Without noticing that Iva's eye was still in range of the rifle, Ralph shot and the bullet went into the corner of Iva's eye.

The two children trudged home, the little girl in frightful pain. Dr. Paton was reached by phone and hurried her over to Ann Arbor, where Dr. Peterson took out the bullet. The incident has ended remarkably well, the child's eyesight not being in the least injured and the wound healing without even a scar remaining, it is thought, as a reminder of the accident.

Keck sued for $100 damages claiming that Genther had driven cows onto his yard with resulting damage to that amount. The jury, however, failed to find Genther at fault.

An Eminent Attorney.

Mr. Sawyer was one of the most eminent lawyers ever to practise in Michigan and has been long known as the dean of the Washtenaw County bar. He was of English decent and was placed upon his own resources early in life and was forced to work his own way through the schools from which he graduated. He was born in Mottsville, N. Y., November 18, 1834 and his first graduation was from the Starkey seminary, New York, in 1856. During the following year he came to Michigan and located in Mason. There he taught school and spent his spare time in the study of law and was admitted to the bar in 1860. Shortly after that time he moved to Chelsea and practised law there until he came to Ann Arbor in 1873. He served in the legislature in 1877-79 and '97. He put through the bill which created the Industrial School for Girls at Adrian. During a considerable part of his career he was associated in practise with Prof. Knowlton, of the U. of M. law college. The last big case in which he participated was in the defense of former State Treasurer Glazier.

Mr. Sawyer leaves his widow and three sons, Andrew, Fred and Lorenzo.

The Washtenaw County Bar association met today to take appropriate action upon the death of Mr. Sawyer The following committees were appointed.

Committee on resolutions: J. C. Knowlton, F. A. Stivers, and George J. Burke.

Committee on flowers: Arthur Brown, J. W. Bennett, William H Murray.

The bar association adjourned to meet on the first day of the October term, at which time the committee on resolutions will report.

50,000 TROOPS OCCUPY LONDON

Union Leaders Say 200,000 Men Have Quit Work.

SOME TRAFFIC BEING MOVED

Armored Cruiser Antrim Lands Bluejackets at Liverpool—Traffic Is Not Yet Visibly Affected in City of London.

London, Aug. 19.—Fifty thousand soldiers have entered London since the great railway strike began, and the city looks as it would if the government were preparing to repel a foreign invasion.

The military held possession of the stations along the lines, not for the purpose at present of interfering in the strike except to protect men desiring to work and to guard the property of the companies.

The walkout ordered by the Amalgamated Society of Railway Servants and allied organizations of employes has been only a partial success. Some of the railway lines are operating very few trains, while on other roads the service continues practically normal.

The union leaders express themselves as satisfied with the response to the strike order. They say 200,000 men have quit work.

Should the strike become general, the soldiers could help but little in moving trains, as there are only three railway companies of the Royal Engineers. They, however, are able to protect the roads and the men working.

The orders to the military officers in this connection are strict. There is to be no firing over heads of the mob in case of riots, but after the riot act has been read ball cartridges, with 100 rounds of which each soldier has been supplied, are to be used.

Lloyd's is kept busy writing strike riot insurance. Policies written against riot in Liverpool are at the rate of $5 per $100. A country mansion near Liverpool believed to be Lord Derby's has been insured for a month for $1,250,000 at the rate of 36 cents per $100.

The armored cruiser Entrim used its searchlights in the harbor at Liverpool throughout the night to protect the shipping and landed bluejackets and marines at Waterloo docks.

It is said the pope has telegraphed the Roman Catholic bishops of England exhorting them to influence the strikers to observe calmness and order.

A strike will be declared on four Irish railways. This was determined on at a meeting in Dublin.

The government will open fifty depots in London for the swearing in of special constables if this should be necessary.

The executive committee of the strikers issued a statement saying: "Results from the provinces point to an early decisive victory."

David Lloyd-George, the chancellor, in the house of commons, reported that Premier Asquith's offer to form a royal commission to effect a settlement of the strike has resulted in a misunderstanding of the men, which might yet be straightened out. But the spokesmen of the railway employes refused to accept Mr. Lloyd-George's views and insist on calling the strike even though the negotiations had not been definitely broken off.

COUNCIL GETS REDUCTION

RESOLUTION TO INVESTIGATE BRINGS DISCOUNT TO CITY GAS CONSUMERS.

Detroit, August 19.—Efforts of the city council were again effective when for the third time in seven and one-half years, the Detroit City Gas company this week voluntarily reduced its rates. This time there is to be a reduction of 5 cents a thousand cubic feet, the cut rate to go into effect September 1. The notice came as a result, supposedly, of resolutions recently adopted by the councilmen and is being heartily welcomed.

The reduction affects surrounding villages and townships, as well as the city.

The new rate makes the charge 5 cents cheaper than the maximum fixed by the city ordinance. There is a paragraph in the ordinance, drafted in 1906, which stipulates that, should the gas company cut its rates, it may never again advance the price without permission from the city council.

The city council does not think this last cutting of rates a philanthropic act, since recent resolutions introduced in the council have asked for an investigation into the company's finances, with a view to getting a cheaper rate.

ANDREW J. SAWYER, SR.

The passing of Andrew J. Sawyer, Sr., yesterday removed from the Washtenaw Bar one of its most distinguished and respected members and from Washtenaw County one of its best known and most useful citizens. The younger members of the bar will miss the kindly interest and counsel of an able lawyer. His cheerful encouragement and reliable advice have been an asset to the community. He has brought his habits of industry to the service of client, city and state, with profit and satisfaction to all.

And behind, as a legacy to all, lingers the wholesome lesson of the reward that awaits the patient plodder who is willing to face the present and the future as their problems arrive; to surmount obstacles and handicaps with hard work history, instead of 'hard luck' stories.

And this long, useful life has illustrated again the abiding value of oratory coupled with erudation. When it was known that Mr. Sawyer was to address the jury in an important case, the court room was pretty sure of being filled. Others could quote the law quite as well as he, but probably no other member of the Washtenaw County bar could so happily and convincingly combine the presentation of the law and the facts to the jury as he, and his courtesy and abounding good humor were equally in evidence, whether he were on a fishing trip or in the forum.

TAKE STOCK AND DECLARE DIVIDENDS.

For Ypsilantians there are now about thirty days, or a little better, when life's isn't quite so strenuous. The students have gone from the Normal College and vacation times are here. Consequently, it ought ro be a little easier to get things done promptly; there ought to be a little better chance to do them well. We ought to take stock now, and find where we are at and make such repairs and plans as will bring added dividends where dividends have been declared before and new dividends where they have been absent before. If we all wait until just a few days before the return of the students and the arrival of the new families who have come to educate their children, it will then be impossible to get what we want done when we want it done and we will lose dividends by not being ready.

The purpose of taking stock being for the purpose mainly of clearing the decks for future action and promoting one's business, the same principles, we believe, can be profitably employed by a municipality in promoting its interests.

We understand that shortly there will be called a meeting of the Ypsilanti Industrial Association, or at least a meeting of the board of directors. We believe it would be well for every citizen who feels the importance of giving special attention to some particular line of municipal activity in promoting our interests, municipally, to communicate with the Ypsilanti Industrial Association. Send them a communication, or talk with its officers in order that there may be specific things for the board to give its atention to.

There is the question of advertising our city. We believe it deserves to be advertised. We do not see why we could not make judicious use of some money along this line. It is the regular practise of a large number of enterprising towns. They buy space in the magazines and the large dailies. They set aside a specific sum for advertising purposes, and they employ somebody to intelligently invest that in advertising.

And we are informed it is done abroad more than it is done here. The following ad may be seen in the principal German newspapers, published, we understand, by the city of Magdeburg. This is a good-sized city of over 200,000 people. It is an example of what is done, however, quite generally in Germany, where municipalities are run on a business basis and where the post of mayor is secured by competitive examination. They ran this ad: "Excellent site for factories and works producing chemicals, textiles, soap, oil, sugar, paper, leather and electro-technical goods. Close to railroads. Fast trains to everywhere. Cheap coal and cheap river transports. Workmen's dwellings in immediate vicinity. Cheap and good labor. Cost of living moderate. Low death rate. Excellent schools, theatres, and museums. Active trading, intellectual and musical center. First-class banks. For all particulars, apply to the Burgomaster." Subjoined to this is a little map, showing rail and water connections with the principal places in Germany and giving the most advantageous rates for freight to the Baltic and North Sea ports.

The City of Asheville, North Carolina, which is a tourist town, is probably the first city in the country to create an advertising fund through taxation by direct vote of the people. It expended last year, and, it seems to think, wisely, for newspaper advertisements, $1,125. Other expenses, as for 25,000 booklets and 60,000 leaflets, correspondence, etc., brought the total cost up to $2,181. This was for winter tourists. They also propose to put on an advertising campaign for summer tourists.

If Ypsilanti would give its attention to some line of advertising, not too expensive, and try it out, we believe it would be worth the effort. And now, while we are not too busy with other matters, is a good time to take stock and make plans for declaring dividends later on.

"WHAT IS SOCIALISM?"

(Continued)

The Socialist believes that when the new order which he is working for has entirely replaced the old, that it will result in a government founded upon these two propositions:

"1. All men are brethren, not merely brethren in name, but brethren in fact, with a common blood, common destiny, common interests, common cause. The welfare of one of us is the brotherly concern of all of us, and, being brethren, all war and strife and hatred should cease.

"2. The things that men need in common should be owned in common and applied for the Common Good, not for private profit; there should not be private ownership and control of other universal necessities any more than there is private ownership of the air."

Acquisition.

"To facilitate the institution of a government for the application of these principles—a government that, it is well to repeat, they do not propose to create in a day—the Socialists have formed themselves into the political party described in the preceding chapter. Its ultimate purpose is to enlist in its ranks the entire working-class, thus to secure a majority at the polls and thus, eventually, to bring about the industrial revolution, the economic reconstruction of society.

"These means, he contends, are both within the letter and spirit of our present form of government. No question of violence is involved, unless it should be violence employed by Capitalism, in the first instance, to withhold for the minority what the majority shall have gained. The means proposed for the acquisition of the industrial power are more complex.

"In the first place, the Socialist sees well that, in the Cooperative Commonwealth, **all property need not be collectively owned.** Naturally monopolies, from the Socialist's viewpoint, can neither be justly used for private enterprise, nor, by private use, can they be most efficiently employed. Land, for example, may be tilled for individual purposes, but land-ownership must be collective. Thus, says the Socialist, we could not, under Socialism, have a Coal Trust at once absolutely legal and absolutely iniquitous; a limited natural monopoly, making a profit of $80,000,000 in the first six years of its existence; controlling ninety-eight per cent of the world's anthracite product; owning the railroads that carry its coal from the mines; theoretically able to raise its prices to any figure, and headed by a judge-owning Tartuffe, who claims the Almighty as a silent—a very silent—partner. Land-ownership being collective, mining, transportation and the other industries dependent upon land-ownership would, together with all means of communication among men, be collective as well. Such property, however, as is only individually used, should by right be only individually owned.

MOST SEVERE SENTENCE.

The most severe sentence ever imposed on a violator of the local option law in Douglas county, Illinois, was given Horace Sorrells recently. He was found guilty on forty-nine counts and was sentenced to jail for 360 days and fined $4,900 and in addition must pay $566 court costs.—The American Issue.

A HOLSTEIN COW INSPIRES POETRY AT WHITE HOUSE

Pauline Wayne—the White House Cow

Guests of Mrs. Taft's afternoon teas are served with milk and cream from the new White House pet cow, which those who drink may see grazing, near the southern windows of the Executive Mansion.—Daily Paper.

With Taft, Depew, and others who
Are favorites of fame,
Upon the nation's honor-roll,
Inscribe another name,
That generations yet to march
In freedom's mighty train,
May read and ruminate, an so
Remember Pauline Wayne.

She comes from out the brezzy West,
The home of all things great,
To help the Chief Executive
In the affairs of state.
She yields sweet milk for him to drink,
Refreshing heart and brain,
And cream for tea and coffee, too,
He gets from Pauline Wayne.

She breathes of clover in the dew
And pastures green and rich,
Most faithfully in public life
She fills her humble niche;
And in the roses or the snow,
The sunshine or the rain,
May each of us our duty do
As well as Pauline Wayne!

MICHIGAN BRIEFS

FARMER AND TEAM KILLED

Lightning and Wind Damage St. Clair County Property and Crops.

Port Huron, Mich., Aug. 19.—A big storm struck St. Clair county and did thousands of dollars' damage, blowing down trees and ruining nearly ripe fruit crops. Adair suffered the worst damage, the wind blowing the roof off Belle river mill and leveling whole crops of corn.

At Applegate the only fatality occurred when Matthew Frockins was struck by lightning and instantly killed. His horses were also killed when the barn and all its contents burned. Frockins was just driving into his barn when a bolt of lightning struck the building, also hitting him. His body was discovered a few hours later by Leslie McLean, a farmer living nearby, who pulled the dead man's body from underneath the ruins. He leaves a widow and two children.

TARDINESS CAUSES SUICIDE

Lover 15 Minutes Late Leads Jilted One to Take Poison.

Bay City, Mich., Aug. 19.—It was because Maurice Quinlan, a Saginaw traveling man, was 15 minutes late at what was to have been their final meeting, that the young woman known as Mrs. Bertha Quinlan, who died from a dose of poison, committed the deed. Letters were found by Coroner Kelly which showed that Quinlan had determined to break with the girl. The coroner says that there is no evidence that the girl was married to Quinlan.

In his letter Quinlan upbraided the girl for not playing square with him and told her that while he would meet her for a last talk, she need expect no reconciliation, as he had decided to quit her. The girl told a friend that if Quinlan did not show up she would "do something to herself."

FINDS POSTS WERE STOLEN

Little Sherlock Holmseing by State Official Results in Arrest.

Lansing, Mich., Aug. 19.—Some clever detective work on the part of Deputy Land Commissioner Glen R. Munshaw led to the arrest of Andrew Sass, an Iosco county lumberman, on a charge of taking lumber from state lands.

When the land department intercepted a carload of cedar posts at Howell a few months ago, Deputy Munshaw had reason to believe that they came from the reserves in Iosco county, so he carefully sawed the butts off several posts and they were taken to Iosco county and compared with the cedar stumps in that section of the state land. Identification was easy and a warrant for the arrest of Sass, who was thought to have operated on the reserve, followed.

Earnest Plea Made for Spotless Town

The Board of Trade of Paterson, N. J., has organized a widespread movement to have the city cleaned up and kept clean. One of the appeals sent to every citizen applies to any other city with equal force. It is as follows:

Do not drop the fruit you're eating,
Neighbor mine;
On the sidewalk, sewer, or grating,
Neighbor mine;
But lest you and I should quarrel,
Listen to my little moral,
Go and toss it in the barrel,
Neighbor mine.

Look! Whene'er you drop a paper,
Neighbor mine;
In the wind it cuts a caper,
Neighbor mine;
Down the street it madly courses,
And should fill you with remourses,
When you see it scare the horses,
Neighbor mine.

Paper cans were made for papers,
Neighbor mine;
Let's not have this fact escape us,
Neighbor mine;
And if you will lend a hand,
Soon our city dear shall stand
As the cleanest in the land,
Neighbor mine.

Sherbet From Violets.

Sherbet made of extract of violets was much esteemed in the east and Mohammed is reported to have said of it that it surpassed all other extracts. In some parts of Europe it is customary to mingle violets, roses and lime blossoms with preserves to add a flower element to the fruity flavor. In Egypt and Turkey violets are used in making sherbets, as mint is employed in juleps in Kentucky.

Seemed to Give Him a New Stomach.

"I suffered intensely after eating and no medicine or treatment I tried seemed to do any good," writes H. M. Youngpeters, Editor of The Sun, Lake View, Ohio. "The first few doses of Chamberlain's Stomach and Liver Tablets gave me surprising relief and the second bottle seemed to give me a new stomach and perfectly good health." ALL INSURANCE POLICIES ARE NOT OF EQUAL VALUE

ALL INSURANCE COMPANIES ARE NOT EQUALLY SAFE -- AND HONEST

ALL AGENCIES DO NOT REPRESENT THE BEST COMPANIES

THIS WAS MADE PLAIN IN A FINAL BULLETIN GIVEN OUT YESTERDAY CONCERNING THE DETROIT INDUSTRIAL HEALTH AND ACCIDENT COMPANIES WHICH HAVE BEEN BEFORE THE INVESTIGATING COMMITTEE OF THE NATIONAL CONVENTION OF INSURANCE COMMISSIONERS, WHICH FINISHED A THREE DAYS HEARING WEDNESDAY AFTERNOON. THE DETROIT FREE PRESS IN ITS REPORT OF THE INVESTIGATION SAYS:

"The Standard Accident Insurance Co. was the only Detroit organization to go unscathed through the fire of the investigation. It even received words of praise.

"Speaking of the Standard, the committee said: 'The examination of this company failed to develop any of the criticized conditions or tendencies previously given to the public by the committee. The policy of this company is to make prompt and full payment of all legitimate claims against it. None is rejected except for good and sufficient reasons in doubtful and disputed cases. The company endeavors to avoid litigation. Its treatment of its policy-holders is such that it is fully entitled to the confidence of the insuring public.'

"The Standard's industrial health and accident department is only a part of the organization. It is reported that on this business it has made but little money."—Detroit Free Press, Friday, Aug. 18th, 1911.

The fact that a Company is admitted to do business in the state does not prove that its policies are safe. If Ypsilanti should burn, THE HARTFORD FIRE INSURANCE COMPANY, OF HARTFORD, alone would pay out in losses more than the amount any fire company is required to deposit with the state for the protection of policy holders.

THIS AGENCY REPRESENTS NONE BUT THE BEST COMPANIES FOR THE DIFFERENT LINES OF INSURANCE.

If you have a LIFE policy issued by the NEW ENGLAND MUTUAL LIFE INS. CO. of Boston, Mass., or an ACCIDENT or SICK and ACCIDENT policy issued by the STANDARD ACCIDENT INS. CO. of Detroit, Mich., or a BOND issued by the NATIONAL SURETY CO. of New York, or a FIRE policy issued by the HARTFORD FIRE INS. CO. of Hartford, or the AETNA of Hartford or the NATIONAL of Hartford, or the NORTH AMERICA of Philadelphia, you will receive, in case of loss, every cent your policy calls for, with a fair and honest adjustment and you will not have to hire an adjuster or a lawyer to see that you get your money.

THIS AGENCY REPRESENTS THE ABOVE AND OTHER OF THE BETTER COMPANIES.

HIDDEN DANGERS.

Nature Gives Timely Warnings That No Ypsilanti Citizen Can Afford To Ignore.

DANGER SIGNAL NO. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys excrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy, or a thick, red, illsmelling urine, full of sediment and irregular of passage.

DANGER SIGNAL NO. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the approach of dropsey, gravel and Bright's disease. Doan's Kidney Pills help sick kidney's. Here's Ypsilanti proof:

W. H. Hall, 513 N. Adams St., Ypsilanti, Mich., says: "Short use of Doan's Kidney Pills, procured from Weinmann-Matthews Co.'s Drug Store, convinced me that they are an excellent kidney remedy. They entirely relieved me of pain in the small of my back and difficulty with the kidney secretions. I cheerfully recommend Doan's Kidney Pills."

ALIGHTS IN CORN FIELD

Atwood Lands a Few Miles West of Erie, Pa.

Gasoline Gives Out and He Is Forced to Postpone Entrance into Erie.

Erie, Pa., Aug. 19.—At 7:20 p. m Harry Atwood, flying from St. Louis to New York, dropped at Swansville, eleven miles west of here, his gasoline tank having become empty. Early reports said Atwood had been killed and the machine smashed, and excitement in this city was most intense.

The machine worked well from Cleveland until the aviator passed Fairview, fourteen miles west of this city. Then Atwood found that his gasoline tank was going low and he made a landing in John Strucker's corn field, about one mile west of Swansville.

He followed the lake shore down from Cleveland, going most of the way over the lake, and reports from all along the route stated that he was flying from 500 to 800 feet in the air. The machine worked finely all the way and Atwood clipped off the distance between Cleveland and Swanville at the rate of nearly a mile a minute.

People in the vicinity of this city sighted the aviator as he swept down the lake shore. They saw the machine take a sudden veer southward and then dip down. With the recent accident to Bud Mars fresh in their minds, Erie people thought at once that the daring birdman had met his death.

He made arrangements at once with two farm boys to guard the machine during the night and then announced that he would stay at a farm house until 10 o'clock this morning when he would make a start for this city.

FRECKLES GONE

"Simple Remedy from my Druggist Removed Them," Says Society Lady.

"The best skin specialists told me that nothing would remove my freckles and that I would carry them to my grave," said a well known society woman, "but I fooled them all with a new drug, othine—double strength, that I bought at my druggist's which cleared my skin and gave me a fine complexion."

The action of othine is really remarkable, for when applied at night, many of the freckles disappear entirely by morning, and the rest have begun to fade. An ounce is usually all that is needed, even for the worst case.

Be sure to ask your druggist for the double strength othine, as this is sold under a guarantee of money back if it fails to remove the freckles.

The Choice of Vocation.

This year the Harvard summer school will have for the first time a vocational course, which it is intended shall give teachers an idea of the way in which to guide their pupils in the choice of a vocation. The courses of the summer are open to both men and women, and no doubt both will take advantage of the course, as the responsibility of the teacher in this direction is coming to be recognized more and more.

An ordinary case of diarrhoea can, as a rule, be cured by a single dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. This remedy has no superior for bowel complaints. For sale by Frank Smith, Druggist.
